DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Claim 9 recites a dual band antenna device comprising a first linear periodic array of first linear periodic array for a first frequency band and a second linear periodic array of second individual antennas for a second frequency band, wherein the period of the first linear periodic array is twice as large as the period of the second linear periodic array, the second individual antennas arranged alternately between the first and above the first individual antennas, and the first individual antennas and second individual antennas constructed as patch radiators.

None of the prior arts shows or suggests this dual antenna device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
